users are being significantly disturbed since the beginning of the epidemic of Covid-19. Work from home has become the agenda and companies have to face this challenge. Being one of the most popular accounting tools, it has integrated options to allow work from home. It requires a simple configuration in the Tally where the license is installed and access to a specific heel. Net User ID (email ID) for the á ċ" socioia á ċ that should be accessible remotely. This article is a step-by-step guide to allow á ċ á ċ á to labor from home using Tally Erp9á ċ ". What is the remote access in Tally Erp 9? The remote access capacity in Tally.erp 9 allows a user to access company data even while the person is far from your office. This is made possible by the heel. Net framework which provides a secure connection through reliable remote access. Net who does not store any data, uses advanced encryption to ensure that anyone outside the system is not accessible. In addition, the latest release of Tally Erp 9, version 6.6, allowed á ċ œbrowserá ċ access to various commercial relations. Through this, it is possible to log in from mobile or laptop and view reports on the web browser safely. What are the essential requirements to allow remote access? A tally license valid with a valid software license. To check the validity of the Tally Software Services (á ċ œTssá ċ), click on the á ċ œLicenses & Servicesá ċ panel (short cut alt + ctrl + l) in the Gateway of Tally Window. It is recommended to switch to Tally Release 6.6 as the browser view is activated through this. It should be noted that healing on remote can also be accessible on á ċ œmate educational dementiaá ċ œ. However, the tally server in which the data is residual should have a valid license and the TSS subscription. What is Tilly Software Services eroiretlu eroiretlu ,SST noC .9 PRE ,yllaT a erolav eregnuigga da onatua ehc Átilanoiznuf id emeisinu nu "Á )SST( scivireS erawtoS yllaT Like the continuous improvements to the product, the central consolidation of all branch data on safe servers, the remote connectivity, the banking services, the instant support from Within Tall.erp 9, the relationships of access from the browser and many other functionalities that They improve business services are available. TSS gives you access to a wide range of services connecting to the Tally.net server using your Tally.net account. Tally.net Server authentic your ID Tally.net and check an active TSS subscription before providing the requested service. To enable or configure the remote access function in Tally.erp 9: on the server computer, click on the Access Control Center as a Tally.net user with your heel credentials. In case you have forgotten, reset the password. Access the control center and the following screen appears. Click on the management of users mentions the ED- mail of the user who intends to give access to the following screen. Select "owner" from the "security level" list. Enter the e-mail ID requested in á ċ á ċ ~ á "Tally.net lida ċ and Set á ċ ávelop á ċ á ċ ávelop, ~ á ċ á ċ ávelop á ċ ue ċ ávelop ástatusá ~ á ċ ávelop á ċ or set up according to your requirement. An Automatic EMA of Tally would have been sent to the user if the user account is created for the first time, together with a default password. An example of the -mail is mentioned below. The "Remote User" account is now activated. The remote user must download Tally Erp 9, and in the "Gateway of Tall" login as "Refillity user". Enter the remote username (ID and -mail) and the password sent by heel via e -mail. If the remote user is logging in for the first time, he would require the modification of the default password. Now the remote user has activated the account. However, the "company" or the customer has yet to be assigned to him or you. Assignment of to the remote user to assign access to a specific company, in the server system, access must be enabled to the specific "Company" or which the remote user intends to have access. In Gate way of Tally, Chose Company Info and Chose eÁÁÁAltereÁÁÁ Company. Enable Security Control for the Company in Tally Once enabled, in the eÁÁÁAltereÁÁÁ Company option, Click on eÁÁASecurity Control eÁÁÁ and choose eÁÁÁUsers and PasswordseÁÁÁ Enter the email ID of tally.net user, for which account has been created. Set eÁÁÁYeseÁÁÁ to eÁÁÁAllow to Connect CompanyeÁÁÁ. Set eÁÁÁYeseÁÁÁ to both eÁÁÁEnable SMS AccessseÁÁÁ and eÁÁASMS Company NameeÁÁÁ and eÁÁABrowser AccessseÁÁÁ At the Security Level, you can choose Tally.Net User (limited access) or Tally.Net Owner or Tally.Net Auditor (for unlimited access). Further access restrictions can also be enabled for each of the user by clicking on the subsequent menu : On completion, in the Gateway of Tally, the Company has to be eÁÁÁConnectedeÁÁÁ Key board shortcut F4. The remote user can now access the company on remote. Visit and click on Log In on the Top Right Corner. Once the user logs in the list of companies which he / she has access appears in the left corner, click on Reports and chose any of the below mentioned reports Once the report is chosen, chose the date range for which you want the report to be displayed or downloaded. Download option in available as PDF. Remote Audit using Tally Audit of client data can also be performed using the above-mentioned steps, even if the data is at the client premises. In addition, the Auditor can consider using the eÁÁAAudit & ComplianceeÁÁÁ Option from the Gateway of Tally. Click on eÁÁAAudit & ComplianceeÁÁÁ and explore the various options. Audit & Analysis has various powerful functions which can be used for audit, such as verification of chart of accounts, relative size factor etc. This acts like a Data analytics module of Tally Tally Remote FAQs How many Tally.NET users can be created for single user and multi user licenses? Single user license eÁÁÁ one Tally.NET user Multi user - 10 Tally. NET users Tally Server - 10 + 50 users simultaneously What is the recommended bandwidth? Min 1 mbps Internet is required What are the general access restrictions? NET user will have access rights to access data. NET Owner and Tally. The NET auditor will have access to all additions and changes as an administrator, except for the company's alteration. Should Tally always be on the server? Yes, the system should always be on and the company on Tally should always be connected. How to set Tally on VPN? What is the advantage / disadvantage? Tally is not recommended VPN Will TDL even work? If I'm using any Tally add-on to import data, will it work remotely? Yes Local Add-ons and TDL will work. If it is allowed - Allow local TDL next to Allow Remote Access and Allow browser access in users and passwords under security control. Do I need to migrate data to Tally before using the tally 6.6? Migration of unsolicited data. Should Tally be in progress all the time? Yes, Tally and the company must be activated during the period. Alternative Options Purchase Tally on Rental Option for a few months Microsoft Windows Remote Desk / Zoho Assist / AnyDesk can be used to access Tally Install Firewall & VPN License (Ex: Fortigate) Internet connection with static/public IP (speak to ISP) Costs from the INR 25,000 Tally 30 days free ERP package are available References: Video on How to use Tally on Remote and Audit .
